### AC-8
- 6 steplessly pre-programmable forward knife speeds
- 2 reverse mixing speeds
- 2 separate bowl speeds
- Frequency-controlled 3-phase motor of the main motor, max. 140 kW
- Separate 2 speed bowl drive motor
- Frequency-controlled drive system with smart control of output
- Command 1000
  - Digital display for gear, knife speeds, running time, temperature, bowl speeds, time. All knife speeds are steplessly pre-programmable according to the motor type variant and subsequently retrieved via the practical customer-orientated knee operation or cross operation of the Cutter.
  - Switch-off automatic system for temperature and running time. Up to 9 switch-offs possible. Display of maintenance intervals and service intervals.
- Separate Panel box of stainless steel with built-in main-switch

### DC-8
- 6 steplessly pre-programmable forward knife speeds
- 2 reverse mixing speeds
- 2 separate bowl speeds
- 3-phase motor, max. 140 kW
- Separate 2 speed bowl drive motor
- Command 1000
  - Digital display for gear, knife speeds, running time, temperature, bowl speeds, time. All knife speeds are steplessly pre-programmable according to the motor type variant and subsequently retrieved via the practical customer-orientated knee operation or cross operation of the Cutter.
  - Switch-off automatic system for temperature and running time. Up to 9 switch-offs possible. Display of maintenance intervals and service intervals.
- Separate Panel box of stainless steel with built-in main-switch

### Ultra
- 2 knife speeds
- 2 mixing speeds
- 2 separate bowl speeds
- 3-phase motor with 105, 125 or 140 kW
- Separate 2 speed bowl drive motor
- Command 1000
  - Digital display for gear, knife speeds, running time, temperature, bowl speeds, time. All knife speeds are steplessly pre-programmable according to the motor type variant and subsequently retrieved via the practical customer-orientated knee operation or cross operation of the Cutter.
  - Switch-off automatic system for temperature and running time. Up to 9 switch-offs possible. Display of maintenance intervals and service intervals.
- Separate Panel box of stainless steel

### Rasant
- 2 knife speeds
- 2 bowl speeds
- 3-phase motor with 105, 125 or 140 kW
- Command 1000
  - Digital display for gear, knife speeds, running time, temperature, bowl speeds, time. All knife speeds are steplessly pre-programmable according to the motor type variant and subsequently retrieved via the practical customer-orientated knee operation or cross operation of the Cutter.
  - Switch-off automatic system for temperature and running time. Up to 9 switch-offs possible. Display of maintenance intervals and service intervals.
- Separate Panel box of stainless steel

---

325 litre bowl of stainless steel
Almost completely made of solid stainless steel
Operation via cross lever switches
Separate digital control in stainless housing
Ejector, main cover and noise absorbing cover hydraulically operated
Main Cover of stainless steel
Noise absorbing cover of transparent special plastic
Closed machine bottom with ventilation system
Many further options
